

Starlight, star bright

Which movie will I see tonight?

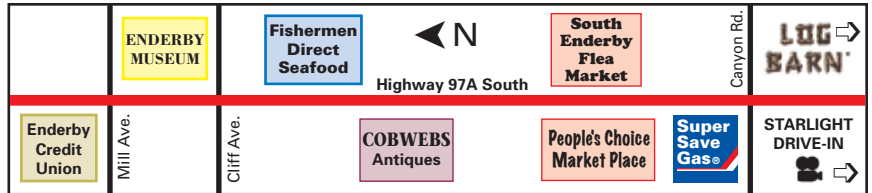

For the people who grew up in the era of drive-ins or for younger people who have never had the experience, the Starlight Drive-In is the ultimate movie-going experience. North America's largest drive-in screen is located in Enderby. (In case you like some factual information to back that up: it is 6000 square feet: 15 feet off the ground: 50' high by 120' wide).

It's like stepping back in time, sitting in the car watching the movie. You can bring a blanket and sit outside under the stars or put your feet up on the dashboard. There's a concession that has the lowest prices in B.C. You can get beverages, candy, nachos, hot dogs and fries. This summer there are lots of good movies lined up. For movie information call 250-838-6757 or toll free 1-866-407-7003.

Reflection - July 24 and 25

Runaway Moon Theatre's Reflection Community Art Project finishes up more than six months of community art-making and workshops with a spectacular large-scale performance celebrating water and our relationship to it. Taking place at the Kingfisher Interpretive Centre on the

banks of the beautiful Shuswap River, this free show will feature rippling movement, live watery music and song, and waves of flowing fabric costumes and sets. For more info contact Runaway Moon at 250-306-3935, info@runawaymoon.org, www.runawaymoon.org
